For over 35 years, the Affiliated Network of dental practices providing Affordable Dentures has had a singular focus on providing same day dentures and tooth extractions for half the price. Because of our singular focus and patient service, we have had the wonderful opportunity to care for over 5,000,000 patients, and the Affiliated Network has become the largest provider of Denture Services in the U.S.

We would be honored to serve the Denture, Partial, and Tooth Extraction needs of all previous AllCare Dental Patients. **To help you with the transition, we would like to offer a discount on our already very affordable prices.**

Please call (423) 538-5197 for details. We hope to see you soon.
