

In order to provide you with the most quality care, Affordable Dentures, Franklin, IN is now implementing an appointment confirmation policy. This confirmation policy will help us provide you with the timely service you deserve.

We will call you two (2) days prior to your dental appointment. If we do not hear from you within 24 hours of your appointed time, we will reserve the right to place emergency patients in that appointment. If you are more than (15) fifteen minutes late to your scheduled appointment you may be asked to reschedule.

Any patient missing two (2) appointments within one year without making prior arrangements to either reschedule or cancel with our office will be placed on a same day service restriction. Patients on this restriction will need to contact our office on the day they are seeking an appointment and we will try and accommodate within our schedule for that day. We do understand emergencies can arise. We only ask that our patients please contact our office as soon as possible in such circumstances. We are committed to providing you with the best possible care.

I have read and understand the appointment policy.
